Marking Instructions

Please note that these marking instructions have not been standardised based on candidate responses. You may therefore need to agree within your centre how to consistently mark an item if a candidate response is not covered by the marking instructions.

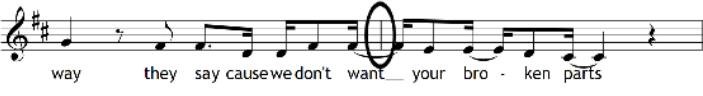

General marking principles for Advanced Higher Music

Always apply these general principles. Use them in conjunction with the detailed marking instructions, which identify the key features required in candidates' responses.

- (a) Always use positive marking. This means candidates accumulate marks for the demonstration of relevant skills, knowledge and understanding; marks are not deducted for errors or omissions.
- (b) Use your professional judgement when candidates' responses do not exactly match marking instructions but carry the same meaning, for example plagal cadence and IV-I or plainchant and plainsong.
- (c) Candidates are asked to tick one or more boxes in multiple choice questions. Accept a cross or any other sign which makes the candidate's intentions clear.
- (d) Accept inaccurate spelling where the candidate's intention is clear.

<p>Additional guidance for extended answers in Q6(b)(i)</p> <p><u>Similarities</u></p> <ol style="list-style-type: none"> 1. Accents or <i>sfz</i> or <i>sforzando</i> – Accents are used in both pieces. 2. Anacrusis – Both pieces feature the use of upbeats in their melodic material. 3. Contrary motion – Contrary motion is present in the final section of the Minuet. 4. Diminished triad – In both excerpts the composers have used diminished chords. 5. Dominant 7th – Dominant 7ths are present in both excerpts. 6. Homophonic – Both pieces are homophonic as they use a single melodic idea/theme with accompaniment. 7. Modulation – Both excerpts feature changes of key during the extract. 8. Pedal – Pedals are heard in both excerpts, for example in the lower strings and timpani at the end of the first section of the Minuet. 9. Perfect cadences – Both excerpts have numerous examples of perfect cadences. 10. Sequences – Each piece features melodic and harmonic sequences. 11. Simple time – Simple time signatures are used in both pieces. 12. Staccato – Short, detached playing is a feature used in both pieces. 13. Symphony – Both pieces are movements from symphonies. 14. Timpani – Both pieces feature timpani in the percussion. 15. Trumpet(s) or French horn(s) – These instruments are prominent in both pieces. 16. Unison or octaves – Both excerpts have parts in unison or octaves. <p><u>Differences</u></p> <ol style="list-style-type: none"> 1. Excerpt 1 features a classical (or chamber or small) orchestra whereas excerpt 2 features a romantic (or symphony or large) orchestra. 2. Excerpt 1 is in a major key whereas excerpt 2 is in a minor key or is modal. 3. Excerpt 1 has a time signature of 3/4 whereas excerpt 2 has a time signature of 2/4 or 4/4. 4. Excerpt 1 has the following ornaments: acciaccaturas, appoggiaturas and turns. Excerpt 2 has trills. 			

Question	Expected response	Max mark	Additional guidance
	<p><u>Excerpt 1 only</u></p> <ul style="list-style-type: none"> • Acciaccatura – These are heard in the strings and woodwind. • Antiphonal – Exchanges are heard at the opening of the extract, and when the opening section returns, between strings/woodwind instruments and full orchestra. • Appoggiatura – These are an important feature of the writing. • Arpeggios or broken chords – The opening melodic material is based on the tonic arpeggio. • Chromatic scale or chromatic – Some semitonal movement adds interest to the melodies. • Hemiola – This occurs in the second half of the excerpt before the pause. • Minuet – The 3/4 metre and tempo of this excerpt is typical of the Minuet which was commonly used as a movement in the early classical symphony. • Pause – This is heard before the final twelve bars of the excerpt. • Ternary form – The excerpt has a clear ABA' structure. • Turn – There are many examples of this ornament in the excerpt. <p><u>Excerpt 2 only</u></p> <ul style="list-style-type: none"> • Cross rhythms or dotted rhythms or 3 against 2 – These are heard in the latter half of the excerpt where the upper strings play triplets and the rest of the orchestra play a steady quaver rhythm with the horns in picking out the off-beat quavers. • Diminished 7ths – These chords are heard at the end of the excerpt along with a series of descending arpeggiated diminished 7ths. • Diminution – This is heard at the start of the excerpt. The interval of a semitone (first two notes) is repeated a number of times. The third and fourth times we hear the interval the note values of the rhythm have been halved. It is also heard later in the excerpt in the upper strings and upper woodwind just before the triplet section starts. • Features a semitone – This is heard prominently at the start of the excerpt where it is the interval between the first two notes. • Trill – This is heard at the end of the introductory section, just before the brass start playing the main theme. • Triplets – These are heard in the latter half of the excerpt, initially in the upper strings before passing to the upper woodwind.

Question	Expected response	Max mark	Additional guidance
	<p style="text-align: center;">Additional guidance for Q6(b)(ii)</p> <p>Excerpt 1 is from the Classical period, the main characteristics of which are:</p> <p>The orchestra consists of predominantly strings with woodwind, trumpets and horns (18th century classical orchestra).</p> <p>The harmony used, mainly tonic and dominant, is typical of the classical period. Dominant 7ths or diminished chords are outlined in the melodies and chromaticism is also used.</p> <p>The light, homophonic texture is typical of this period. The texture is melody-dominated and uses arpeggios or broken chords. Antiphonal exchanges are heard between strings and woodwind and the full orchestra.</p> <p>Ornamentation is typical of the period with appoggiaturas, turns andacciaccaturas featuring.</p> <p>Dynamic variation is limited but occasional sforzando and accents are used in the context of the overall dynamic. This is typical of this period.</p> <p>Excerpt 2 is from the Romantic period, the main characteristics of which are:</p> <p>The increased size of the orchestra in the Romantic period, both in terms of the numbers of string players giving a fuller, richer sound and the addition of other instruments, particularly the expanded brass section who take on a more prominent role in the music, give this a ‘larger’ orchestral sound.</p> <p>The harmony used shows a development from the classical ideals of I, IV, V, VI and related major and minor keys. The harmony used is complex and rich due to its use of chromaticism, as can be heard particularly at the start of the excerpt, and its use of diminished 7ths at the end.</p> <p>The rich, full texture that is heard in the triplets/3 against 2 section is typical of the large symphonic sound of the Romantic period.</p> <p>Similarly, the wide dynamic range heard throughout the excerpt is also very typical of Romantic music and enhances the emotional expression that is being conveyed through the music.</p>
