General marking principles for Advanced Higher Music

Always apply these general principles. Use them in conjunction with the detailed marking instructions, which identify the key features required in candidates' responses.

- (a) Always use positive marking. This means candidates accumulate marks for the demonstration of relevant skills, knowledge and understanding; marks are not deducted for errors or omissions.
- (b) Where candidates are asked to identify a number of answers from a list of options, and they identify more answers than required award marks according to the detailed marking instructions for that question.
- (c) Do not accept any answer that is not in the marking instructions. Use your professional judgement when candidates' responses do not exactly match marking instructions but carry the same meaning, for example plagal cadence/IV-I, plainchant/plainsong.
- (d) Multiple-choice questions ask candidates to tick one or more boxes. Accept a cross or any other sign which makes the candidate's intentions clear.
- (e) Use your professional judgement when deciding if candidate's written notation is sufficiently accurate or not.
- (f) Accept inaccurate spelling where the candidate's intention is clear.
